# NATURAL HONEY

- We work with a network of Beekeepers, in Argentina and Uruguay from different areas and types of botanical origin.
- We can supply for export a volume of 2.000 ton of honey/year. About 90% is for export markets.
- We can supply as well other products from the Beehive as Wax, Pollen and Propolis Extract.
- Every batch is checked to guarantee quality and homogeneity.
- We measure among others: HMF, conductivity, color (according to Pfund Scale), antibiotics and other contaminants, humidity and pollen to ensure the best quality.
- We can supply Organic Certified Honey.

- We produce mainly Multifloral Honey but can supply Monofloral Honey as well (citrus, eucalyptus, clover, carob, etc.).
- It is possible to supply in Glass or Plastic Jars of different sizes (10oz, 18oz, 140oz, 160oz with private label).
- Creamed Honey is available as well for delivery in Jars.
- We supply Honey from Oregano fields as well mixed with Almonds, Walnut or Hazelnut. This is a lighted color Honey, with slow crystallization. It is filtered and pasteurized so as to delay crystallization for many months.
