

Fraccionadora San Juan

ABOUT US

Fraccionadora San Juan S.A. was founded in 1993 in the town of Dos Acequias, San Martin. At the beginning of that year we began to package our Fraternal wine in tetra brik of 1 liter in conjunction with the elaboration of wines and the fractionation in “damajuanas” (Fraternal) and bottles (Cavas de Zonda).

For our winemaking team, the soul of our wine is the fruit, which is why we produce reds and whites in which the authentic flavor of the grape prevails. To do this, we take care of their aromas from the plant, protect the leaves and clusters from direct contact with the sun and control the natural flora of the furrows to prevent irradiation from the soil to the plants and preserve the soil from erosion.

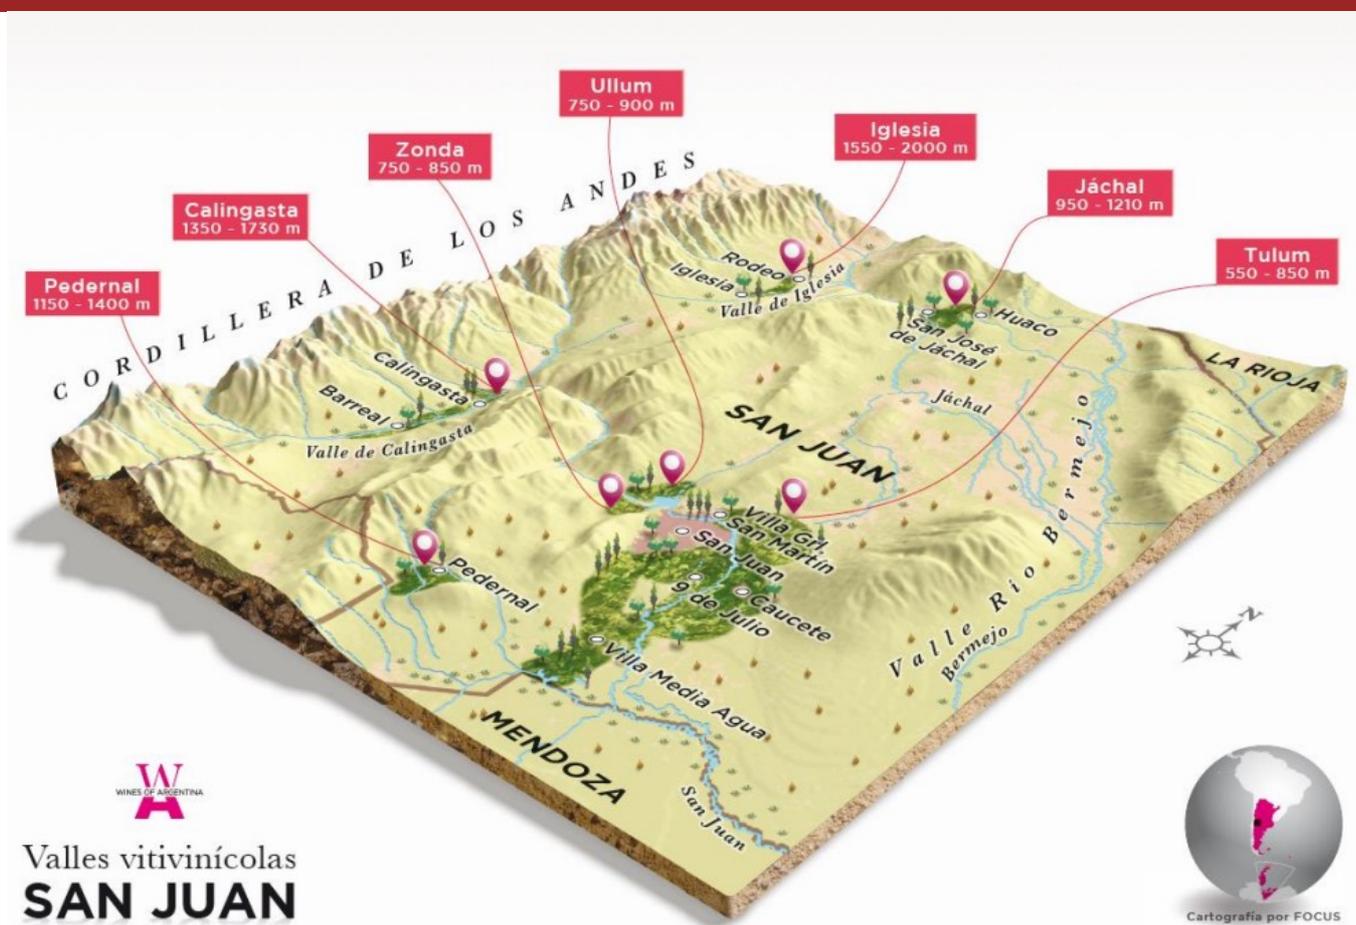

Nowadays, we have three properties. In one winery the varieties of white grapes are made, in another the varieties of red grapes and in the third, must. The total production capacity reached is 18,000,000 liters. The wines and musts are made with our own grapes, from three estates, in which our varietals are produced, Malbec, Syrah, Cabernet Sauvignon, Merlot, Bonarda, Tempranillo, Chardonnay, Chenin and Viognier.

Today our family business continues to grow, constantly improving. Part of its processed volumes are destined for the export of bottled and bulk wine to different countries.

ABOUT US

OUR LOCATION

Rodríguez Este, Dos Acequias, San Juan, Argentina. Our winery is located in Dos Acequías, a town in the Department of San Martín, located in the south center of the province, in the region of Cuyo, northeast of the Tulum Valley.

OUR WINES

VARIETALS CAVAS DE ZONA

MALBEC

Wine with a pleasant flavor, balanced medium body and an intense purple color with sweet tannins. With a vigorous texture and flavor, on the palate it has a touch of rusticity.

CABERNET SAUVIGNON

Wine with marked acidity, rough and with a strong presence of tannins. Matured, it is a tasty and full-bodied wine. It has intense colors and a complex aroma of fruit, truffles, coffee, green pepper and cassis. Wine with marked acidity, rough and with a strong presence of tannins. Matured, it is a tasty and full-bodied wine. It has intense colors and a complex aroma of fruit, truffles, coffee, green pepper and cassis.

SYRAH

This varietal has strong tannins and is suitable for prolonged storage in wood. This wine with an intense aroma, solid and austere, is reminiscent of spices such as cloves, cinnamon and pepper, fruits such as raspberries, blackberries, figs and a hint of dark chocolate.

VARIETALS CAVAS DE ZONA

TEMPRANILLO

Medium graduation wine, well balanced, aromatic and suitable for aging in wood. With a frank palate, they have a velvety taste when they age. They have notes of wild fruits, black plums, cherries and raspberries.

CHARDONNAY

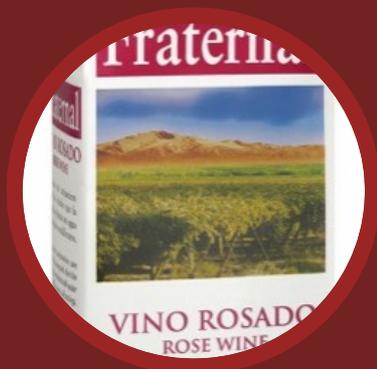

Deep and delicate wine with remarkable persistence. Its particular sign is its pale yellow color with green reflections. Its aroma is reminiscent of fresh fruits such as apples or flowers.
