OUR
WINERIES

About Us

“ Making wine requires always being faced with an unexpected challenge. This awakens a desire for constant improvement, expectations, a desire to innovate and to try out different theories. ”

Abito Wines is a single-vineyard wine project from Finca Bautem that enhances the typical characteristics and notes of the first wine region of Argentina, Maipú.

Bonomo & Montiel is an author-wine project inspired by the passion for wines. It respects the varietal expression of each one and enhances the quality in the winemaking of different grape regions.

Conejo Negro is a wine project that enhances the fun and innovative side of winemaking. It is a winery that aims to develop cheap, fun and very easy to drink products.

Our team

Sergio Montiel

WINEMAKER

He worked in boutique wineries such as Dolium, Piattelly Vineyards, Bodega Calle, Las Piedras Pura Vid. He won, among other prizes, the gold medal at the 2012 Malbec World Contest. He is currently the Principal Winemaker at Fincas don Martino & Grupo Salute.

Valeria Bonomo

VINEYARD MANAGER ENGINEER

She worked in charge of the vineyards of Viña Cobos together with Paul Hobbs with whom he made harvests in its US warehouse. She also worked on Dolium, Las Piedras Pure Vine and Bodega Sottano. She today is Vineyard Manager Engineer for Salute Group.

Sebastián Mayo

COMMERCIAL DIRECTOR

Industrial Designer, specialized in wine industry. Originally from Argentina, with a specialization in Product Innovation made in Milan, Italy. Now working as Comercial Director for Grupo Salute, high-quality wine producers from Mendoza.

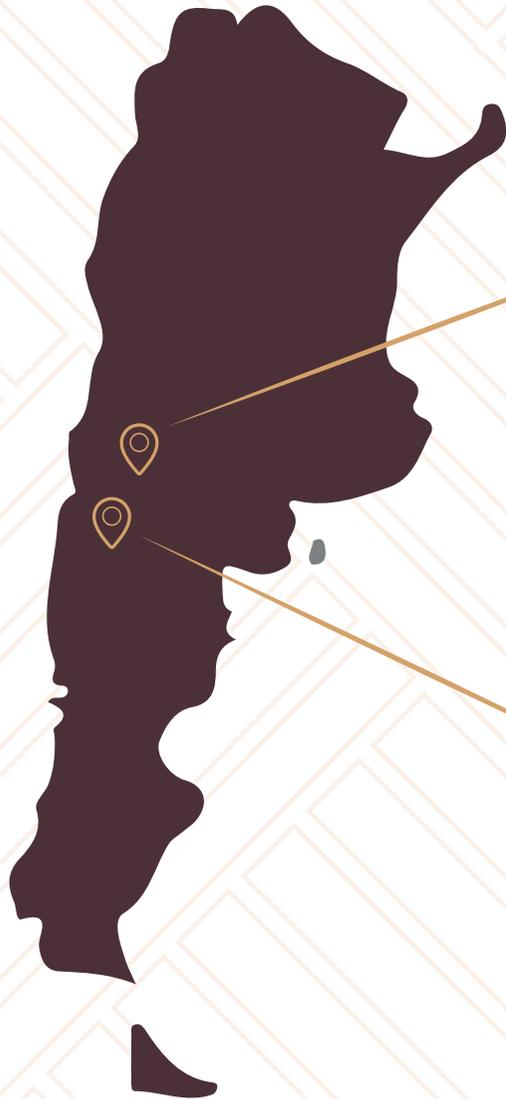

David Mayo

ANGEL INVESTOR

Architect, international businessman. Main businesses in the mattress and box spring industry for more than 30 years. In 2009 he entered the wine industry due to his passion for wines. He is currently a consultant and investor for Grupo Salute.

Vineyards - Terroir

Barrancas, Maipú, Mendoza

The area is characterized by a sandy and stony soil, of alluvial origin, with very good drainage, quite homogeneous in its composition.

Valle de Uco, Mendoza

The area is characterized by a combination of high elevation, alluvial soils, irrigation sourced from the Andes Mountains, a long growing season with over 250 sunny days a year, little rain and vast temperature differences between day and night.

Premium Grape Suppliers

Our main business is the grape supply industry, we sell grapes to big companies such as Kaiken, Viña Cobos, Bressia, Luigi Bosca, Trapiche, Catena Zapata, Bodega Argento, among others, so they can develop their own wines.

However, we are a young, innovative and modern company willing to grow our winemaking business, mainly in the international market.

Some of our clients

Eco-Friendly

In order to make good decisions year after year to offer a better product we use NDVI (Taranis Technology) indicators, weather stations, solar panels, use of drones and latest technology equipment such as ultra-low volume sprayers.

In this way, we prioritize the productive and qualitative growth of our grapes, but at the same time we can obtain a deep analysis through satellite images, aerial images by drones, infection indicators or even detectors of abnormal growth.

We are as friendly with the environment as possible, taking a very rigorous care of all the technology used to improve our productivity.
